

AUMhealth™

Notice of Privacy Practices

Last updated: August 16, 2026

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

I. Introduction

This Notice of Privacy Practices ("Notice") describes the privacy practices of [Covered Entity Legal Name] and its affiliated healthcare professionals, workforce members, and business associates ("we," "us," or "the Practice") in connection with healthcare services you access through the AUMhealth™ Platform. AUMhealth™ is operated by QH Token, Inc., a Wyoming corporation that provides the technology, administrative, and payment infrastructure supporting the Platform; QH Token, Inc. is not itself a medical practice or pharmacy, and this Notice describes the privacy practices of the Practice, not QH Token, Inc.

We're required by law to maintain the privacy of your health information ("Protected Health Information" or "PHI"), to provide you with this Notice of our legal duties and privacy practices, and to notify you following a breach of unsecured PHI. We're required to abide by the terms of this Notice while it's in effect.

To the extent QH Token, Inc. creates, receives, maintains, or transmits PHI on our behalf as a business associate, it does so in accordance with applicable HIPAA requirements and our business associate agreement.

II. Our Responsibilities

We're required by law to maintain the privacy and security of your PHI, provide you with this Notice, notify you following a breach of unsecured PHI as required by law, and follow the terms of the Notice currently in effect. We will not use or disclose your PHI except as described in this Notice or as otherwise permitted or required by law.

III. Uses and Disclosures That Don't Require Your Authorization

We may use and disclose your PHI, without your written authorization, for the following purposes:

- **Treatment.** We may share your PHI with physicians, advanced practice clinicians, pharmacies, laboratories, specialists, and other healthcare professionals involved in your care. For example, information from your telehealth intake may be reviewed by a licensed healthcare professional to determine whether a requested weight-management, men's health, peptide/longevity, or hair-health treatment is medically appropriate.
- **Payment.** We may use and disclose PHI to obtain or provide payment for your care, including determining coverage, processing payment-related information, and coordinating billing. Where services are self-pay, certain payment activities may still require use or disclosure of limited health information for transaction administration.

- **Healthcare Operations.** We may use and disclose PHI for healthcare operations permitted by law, such as quality assessment, clinical review, compliance, credentialing, training, auditing, and business planning. Business associates performing services involving PHI must protect it under applicable law and their contracts with us.
- **Pharmacies.** When a healthcare professional prescribes medication, we may disclose PHI to an appropriately licensed pharmacy to process, dispense, counsel on, fulfill, or ship the prescription. Pharmacies may be HIPAA covered entities in their own right and may provide their own privacy notices.
- **Laboratories.** We may disclose PHI to laboratories, specimen-collection providers, and diagnostic facilities to order, perform, report, interpret, or follow up on testing.
- **Health Oversight and Public Health.** We may disclose PHI for public health and health oversight activities permitted or required by law, such as reporting certain diseases or adverse events, or responding to authorized government audits, inspections, or investigations.
- **Required by Law and Legal Proceedings.** We may use or disclose PHI when required by law, or in response to a valid court order, subpoena, discovery request, or law-enforcement request, subject to applicable legal requirements.
- **Serious Threats to Health or Safety.** When permitted by law, we may disclose PHI necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public.
- **Workers' Compensation and Government Functions.** We may disclose PHI as authorized by workers' compensation laws and for certain specialized government functions permitted by HIPAA.
- **Family Members and Others Involved in Your Care.** Where permitted by law, we may disclose relevant PHI to a family member, caregiver, or other person involved in your care or payment for care, based on your agreement, your opportunity to object, our professional judgment, or another lawful basis. You may tell us not to share particular information, subject to legal exceptions.

IV. Uses and Disclosures That Require Your Written Authorization

Uses or disclosures of PHI not described above generally require your written authorization, including uses involving psychotherapy notes, marketing, or the sale of PHI, as specified by HIPAA. If you provide an authorization, you may revoke it in writing at any time, except to the extent we've already acted in reliance on it or another legal exception applies.

We will not use or disclose your PHI for marketing in a manner requiring HIPAA authorization unless we've obtained a valid authorization or a legal exception applies. AUMhealth's general website advertising is separate from our clinical use of PHI, and technologies used on patient-facing clinical pages are configured to avoid impermissible disclosures of PHI.

V. Your Rights Regarding Your PHI

You have the following rights with respect to your PHI:

- **Right to Inspect and Copy.** You may inspect and obtain a copy of PHI maintained in a designated record set, subject to limited exceptions, including in electronic form where readily

producible. Reasonable, cost-based fees may apply where permitted by law, and we'll respond within the time required by applicable law.

- **Right to Request Corrections.** If you believe PHI in your record is incorrect or incomplete, you may request an amendment. We may deny the request in circumstances permitted by law, but you may submit a statement of disagreement or have your request documented.
- **Right to an Accounting of Disclosures.** You may request an accounting of certain disclosures of your PHI made during the period permitted by law. This doesn't include every disclosure — HIPAA excludes many disclosures for treatment, payment, and healthcare operations.
- **Right to Request Restrictions.** You may request restrictions on certain uses or disclosures of PHI for treatment, payment, or healthcare operations. We're not required to agree to every requested restriction, except that if you pay out-of-pocket in full for a specific item or service and ask that we not disclose that information to a health plan, we must honor that request when required by HIPAA, unless disclosure is otherwise required by law.
- **Right to Request Confidential Communications.** You may ask us to communicate with you about health matters in a particular way or at a particular location, and we'll accommodate reasonable requests as required by law.
- **Right to a Paper or Electronic Copy of This Notice.** You may request a paper copy of this Notice at any time, even if you previously agreed to receive it electronically.
- **Personal Representatives.** A person legally authorized to act on your behalf may exercise these rights for you, subject to verification of their authority and any exceptions permitted by law.

VI. Telehealth Privacy

Telehealth may involve electronic transmission of your health information through questionnaires, secure messages, phone calls, video encounters, photographs, laboratory information, and similar technologies. We and our service providers use safeguards appropriate to our respective roles and applicable law.

You also play a role in protecting your privacy during a telehealth encounter — consider participating from a private location, using a secure device and network, and keeping unauthorized individuals from viewing your account or communications.

VII. Medical Records and AUMhealth Accounts

Your clinical medical record is maintained by us separately from the administrative account records QH Token, Inc. maintains through AUMhealth. If you need to request your clinical records or exercise a HIPAA right described in this Notice, please use the contact information in Section X below, which will direct your request to the appropriate party.

VIII. Breach Notification

If unsecured PHI is acquired, accessed, used, or disclosed in a manner that constitutes a breach under applicable law, we'll notify affected individuals as required by HIPAA and other applicable breach-notification laws.

IX. Changes to This Notice

We reserve the right to change this Notice and our privacy practices as permitted by law. A revised Notice may apply to PHI we already maintain as well as information we receive in the future. The current version will be made available as required by law.

X. Complaints

If you believe your privacy rights have been violated, you may submit a complaint to us using the contact information below. You may also file a complaint with the U.S. Department of Health and Human Services, Office for Civil Rights. You will not be retaliated against for filing a complaint in good faith.

XI. Contact Us

For requests involving your clinical records, HIPAA rights, or questions about this Notice, contact:

[Covered Entity Legal Name]

Attn: Privacy Officer

[Covered Entity Address]

[Covered Entity Privacy Email]

For general administrative questions about your AUMhealth account (not involving PHI or your HIPAA rights), you may also contact QH Token, Inc. at help@AUMhealth.io.
